PROFESSIONAL SUMMARY

Dedicated Computer Science Engineering student with expertise in Python, Cybersecurity, Generative AI, and C. Enthusiastic learner with a foundational understanding of secure application development. Eager to enhance problem-solving skills and explore innovative technology solutions.

SKILLS

Operating System – Windows 11, Linux OS
Programing Language – Python, C, Java
Database – SQL, MySQL
Package – Microsoft Office 365
Web Platform – GitHub, Render.
Cyber Security – WireShark, Kali Linux

CERTIFICATIONS

- Certified in Data Engineering and Big Data Technologies , GUVI - June,2024.
- Completed a course 15Hrs in Android App Development, Udemy - 29 June,2024.
- Trained in HR Principles and Practices in Tareeqa Global Solution PVT.LTD - August 4,2024.
- Proficient in SQL Including advanced querying and DB management, Geekster - June 29,2024.
- Certification of Excel Tips, Excel Champs - August 8,2024.
- Certificate in common Internship Test Issued by Internship Studio – Recognized for successfully completing the assessment evaluating industry-relevant skills.
- **PPG College** *Web Development Hackathon Participant* [Sep, 2024] - Participated in a competitive web development hackathon, collaborating with peers to design and develop innovative web applications and also utilized modern web development frameworks and tools such as HTML, CSS, JavaScript, and React.
- **Novitech Company** *Cyber Security Master Class* Completed[jan,2025]-Mastered advanced cyber security principles, conducted practical exercises, and developed proficiency in various security tools.
- **Tata Consultancy Services (TCS)** *Cyber Security Analyst - IAM Project* [Feb, 2025] - Led the Identity and Access Management (IAM) project, implementing security protocols to safeguard sensitive information.

- **Novi Tech** *AI and ML Intern* December [2024] - February [2025]-Collaborated with senior data scientists to develop and implement machine learning models.

WORKSHOPS

Hardware & Mobile Software
   Gained insights into the integration of hardware devices with mobile software applications.

HR Training Workshop, Tareeqa Company
   Participated in a workshop covering essential HR practices, including recruitment, onboarding, and employee management strategies.

3-Day JavaScript Bootcamp
   Conducted by LetsUpgrade – Gained hands-on experience in JavaScript fundamentals and development concepts.

Novi Tech *AI Bootcamp*
   Attended a comprehensive one-day bootcamp on Artificial Intelligence and Gained foundational knowledge in AI concepts, tools, and applications. Participated in hands-on exercises to implement basic AI algorithms.

YaleitSkillHub *Cyber Security*
   Attended an intensive 4-hour class focused on cyber security hacking techniques and best practices. Learned about various hacking tools and methodologies.

EDUCATION

Bachelor of Engineering in Computer Science & Engineering, 2022-2026, United Institute of Technology, Coimbatore 641 020.
